BROKEN FAITH CHARGED

Association for Study and Prevention of Tuberculosis Arraigns So-called "Remedy" in a Resolution.

If the public considers the action of he National Association for the Study and Prevention of Tuberculosis, adopted at yesterday's meeting at the New Wil-ard, which the association wishes and hopes for, the tuberculosis remedy of Dr. Friedrich Franz Friedmann, of Berlin, and the state, that make environment Germany, will after this remain a drug and the state, that make environment on the market and will not be looked upon any longer as that great agency for the restoration of health and happiness tions.

day officially announced that effects thus far observed do not justify that confidence in Dr. Friedmann's remedy which has been inspired by widespread publicity. The report of the government specifically charges Dr. Friedmann with having broken his promise to afford in-vestigators of the United Staes full op-

Physicians Make Report.

It was through the Public Health Service that the United States government at noon yesterday delivered Fried-mann's arraignment, and the report which was submitted by Dr. John F. Anderson, surgeon of the service, and Dr. A. M. Stimson, both of whom had been assigned by Surgeon General Rupert Blue to meet Dr. Friedmann and study his work. Their report, which was signed by Dr. Stimson, said in

'At the present time we are not in position to express an opinion upon the present cases under observation. The disease for which the remedy is used is prolonged, and is marked by periods of approvement and retrogression

We must not lose sight of the possi-e therapeutic value of this prepara-m, but it is necessary to guard against too great an optimism in respect to its merits. However, without going into detail as to the condition of the patients now under observation, we are in position to state that the facts thus far observed do not justify the confidence in the remedy that has been inspired widespread publicity.

"In our opinion, harm may have been one by this undue publicity, because it as lessened the confidence of tubercu-Sesis persons in well-recog. "z-1 methods of treatment or interrupted their use. "In our series of pationts, Dr. Fried-mann has made almost exclusive use of

the intramuscular method, and a very considerable portion of them have devel-oped either no considerable infiltrate at all or have suffered from abscess formations. It is very evident, therefore, that considerable number of Dr Friedmann's patients may expect their treat ment at the hands of Dr. Friedmann to

nent at the hands of Dr. Friedlessen at the hands of Conserving E. Hussy, June 2.

Sipp from testifying concerning the criminal combination behavior at the police and unlawful interests were taken to Blackwells Island today and will begin their duties as convicts of the police and unlawful interests were taken to Blackwells Island today and will begin their duties as convicts of the police at the polic which Dr. Friedmann per-

material for examination, but this he refused to do.
"We can state that living sold fact

can state that living acid-fast bacteria are being injected by the muscu-lar and intravenous method, although we are ignorant of what medium they are suspended in, or what additional sub-stance or substances may be contained in the final mixture."

Association Arraigns Friedmann.

Immediately upon the adoption of Dr. nderson's report the association adopt-d the following resolution arraigning Dr. Friedmann, the resolution having been adopted by the directors of the "Whereas widespread publicity has been given the claims of an alleged cure, arising in Berlin,
"Be it resolved, That the National As-

sociation for the Study and Prevention of Tuberculosis has no information before it to justify the belief that any specific for tuberculosis has been discoved, which deserves the confidence of a medical profession and the public; Be it further resolved. That it is the duty of the public to continue unabated

ment and cure of tuberculosis."

Dr. Charles L. Miner. of Asheville, N. C., spoke against the adoption of the resolution, declaring that commonly known facts demanded a far more vigorous denunciation of Dr. Friedmann and his accalled cure. Former Surgeon and his so-called cure. Former Surgeon General Sternberg defended the resolu-tion as presented and Dr. Briggs, of New York, also spoke in favor of it. The committee on resolutions also preented a resolution calling on the Hor Representatives to appoint a com-

mittee on public health. New Board of Directors.

The following new members of the board of directors to take the places of thase whose terms have expired were unanimously elected: Physicians-Drs. Herman M. Biggs, New York; George H. Evans. San Francisco; Herbert Maxon King, Liberty, N. Y.; M. P. Ravenel, Madison, Wis.; Lawrence F. Flick, Philadelphia, and Watson S. Rankin, Raleigh, N. C.; lay members, Miss Julia Lathrop and Charles P. Nelli, Washing. Lathrop and Charles P. Nelli, Was Lathrop and Charles P. Nelli, Washing-ton: Lee K. Frankel, New York; Prof. Severance Burrage, Indianapolis; Rt. Rev. F. S. Spaulding, Salt Lake City, and Frederick Alny, Buffalo. Officers elected by the board of direc-tors and confirmed by the assocition this afternoon were:

afternoon were; sident, Dr. John H. Lowman, Cleve

President, Dr. John H. Lowman, Circu-land, Ohio; vice presidents, Miss Mabel T. Boardman, Washington, and Dr. Theodore B. Sachs, Chicago; treasurer, William H. Baldwin, Washington; sec-tiliam H. Baldwin, Washington; secretary, Dr. Henry Barton Jacobs, Balti

mer Surgeon Gen. Sternberg at this afternoon's session, when he was unani-

mously elected an honorary life mem-ber of the association. The organization has but one other such member, this being Dr. Trudeau, of Saranse Lake, N.

... founder of the association.

A number of papers relating to the ork of the physician and the social workers were read before the meeting vesterday, including one by Dr. H. R. M. Landis, of the Clinical Department of the Henry Phipps Tuberculosis Institute, Pittsburg, who said that "present methods in the campaign against the disease are to a great extent defensive rather than preventative. Tuberculosis, the con-servation of infant life, the problems of mental deficiency, and the reduction of the social evil are all questions of public health. The same underlying causes are contributory factors to all of them." Referring to studies made in Panama, Dr. Landls said: "It also emphasizes the need in this country for properly trained municipal health officers are nurses, and furthermore the need for proper, equipment and authority to enforce the laws relating to public health."

Work for Sociologist.

Prof. John R. Commons of the University of Wisconsin, said that tuberculosis and occupational disease, safety and sanitation, infant mortality, hours of labor for women and children—'these are some of the fields of scientific research and governmental administration where the physician and sociologist meet. Here the physician must get beyond physiology, dentagion, and infection, and deal with the institutions of properfy, the family.

pon any longer as that the restoration of health and happens as it has been ever since the German physician and his "cure" made their appearance in this country, where thousands of afflicted men, women, and children flocked to him in the hope to get rid of the disease and regain health.

The United States government yestermically announced that effects thus instify announced that effects thus which instify that confidence is the states which have sanatoriums for not sufficiently advertising this fact. "Thousands of sufferers," said the doctor, "who are now receiving no the doctor, "who are now r treatment whatever would be on the road to health, or at least their disease would be arrested, if they knew about these State institutions, where they might be treated irrespective of their financial
